31 Day Prayer Guide

Volume I

Dear Friends of Missions,

Thank you for your interest in praying for young adult - college students. Covid-19 has caused a lot of disruption in the world. One of the places it is being felt the strongest, is among young adults. The dream of a four-year college education, along with an on-campus experience is just not the same as in the past. This past Fall most schools eliminated in class instruction. Students studied from home. The future for these young adults is uncertain at best. For a generation that thrives on in-person contact and fellowship; social distancing and mask wearing has really put a cramp into their social lives.

The Spring 2021 Semester has been slightly better, but still way different than normal. We are hoping that as students and young adults in general, feel the cramp of Covid-19, that they will reach out to God. We know that the Holy Spirit was sent into the world to convict us of “sin, righteousness and judgment.” Let’s pray that college students will respond to the tugging of the Holy Spirit.

This document, that is before you is the first in series of prayer guides for the schools in New York state. The idea and concept of this prayer guide is to provide you with one school per day, for which you can pray. There are statistics and information provided on each school to help guide you in prayer. We have provided a list of the known Christian groups for each campus. When available we have tried to provide names of individuals who are either advisors for these groups or student leaders.

You will notice that there are suggested prayer requests for each school. We are not expecting each person to pray each request for every school. Allow the Holy Spirit to guide you as you pray. There is one exception to this general rule, that is, we would like to ask you to pray that God would raise up laborers for each school. This is something that Jesus asked us to pray, Luke 10.2. We want to honor that prayer request.

Many young adults are feeling considerable amounts of stress. (Click [here](#) for an article to help understand what they are facing.) Young adults are facing the same struggles as many other Americans; work, finances, future plans, lockdown, etc., but beyond that pray for this generation as they feel lonely, isolated and anxious.

If you know a young adult, please go out of your way to make them feel loved. Let them know that you care for their wellbeing. Have an open ear to listen to their complaints and insecurities. We all need to feel accepted, liked, and not isolated.

This prayer guide was compiled with data from the list found at The National Center for Education Statistics ([NCES](#)) and from each school’s own website. We did use [Univstats](#) for Bryant & Stratton Colleges as well.

Thank You again for investing time into this next generation. Only eternity will tell what we helped along and what we were able to hinder.

Be Blessed,
Joe and Heidi Barrale

Covid-19 Update:

“It is critical to understand that the demographic of BYTS is such where nearly all students live in the immediate region of New Square, many are married with families. The overwhelming majority of students do not have internet access in their homes due to their religious tenets, as per the personal direction of their religious, Rabbinical leaders. The institution’s mode of remote instruction is therefore by phone conference, and this modality is not suited to engagement with students and leads to many students struggling with their studies. It is with this mind that the stakeholders are all in agreement that it is of utmost importance to set up and maintain a system of face to face instruction while adhering to all guidelines set forth. However, BYTS will ensure that continued remote instruction is made available for those who are unable to participate in in-person instruction.”
