## 41 Day Prayer Guide

### Volume I

Dear Friends of Missions,

Thank you for your interest in praying for young adult - college students. Covid-19 has caused a lot of disruption in the world. One of the places it is being felt the strongest, is among young adults. The dream of a four-year college education, along with an on-campus experience just is not going to happen. This past Fall most schools eliminated in class instruction. Students studied from home. The future for these young adults is uncertain. It is basically impossible to make plans. For a generation that thrives on in-person contact and fellowship; social distancing and mask wearing has really put a cramp into their social lives.

The Spring 2021 Semester has been slightly better, but still way different than normal. We are hoping that as students and young adults in general, feel the cramp of Covid-19, that they will reach out to God. We know that the Holy Spirit was sent into the world to convict us of "sin, righteousness and judgment." Let's pray that college students will respond to the tugging of the Holy Spirit.

This document, that is before you, is a 41 day prayer guide. The idea and concept of this prayer guide is to provide you with one school per day, for which you can pray. There are statistics and information provided on each school to help guide you in prayer. We have provided a list of the known Christian groups for each campus. When available we have tried to provide names of individuals who are either advisors for these groups or student leaders.

You will notice that there are suggested prayer requests for each school. We are not expecting each person to pray each request for every school. Allow the Holy Spirit to guide you as you pray. There is one exception to this general rule, that is, we would like to ask you to pray that God would raise up laborers for each school. This is something that Jesus asked us to pray, Luke 10.2. We want to honor that prayer request. Let me mention one other

point as touching prayer. The second item on the prayer list is a concern for the student's stress levels. Many young adults are feeling considerable amounts of stress. Click [here](#) for an article to help understand what they are facing.

Young adults are facing the same struggles as many other Americans; work, finances, future plans, lock-down, etc. Beyond that pray for this generation as they feel lonely, isolated and anxious. If you know a young adult make sure you go out of your way to make them feel loved. Let them know that you care for their well-being. Have an open ear to listen to their complaints and insecurities. We all need to feel accepted, liked, and not isolated.

This prayer guide was compiled with data from the Oregon Department of Higher Education [website](#), as well as the list found at The National Center for Education Statistics ([NCES](#)). These two sources were the bases for whether or not a school made our prayer guide.

Thank You again for investing time into this next generation. Only eternity will tell what we helped along and what we were able to hinder.

Be Blessed,  
Joe and Heidi Barrale

Thanks to a mix of measurement and behavioral tools: PCR saliva testing, effluent testing, and enhanced social distancing measures, we’re seeing a positivity rate of just 0.26%. The half dozen positive cases with current campus impact are being managed through rapid isolation, contact tracing, and quarantine protocols, as well as support for those living in isolation or quarantine on the campus. We owe a great debt of gratitude to staff, faculty, and students who are working tirelessly to keep our campus as healthy as possible.”
